

Request for Proposals: Northeastern Region Programmatic Field Liaisons and Community Liaisons

Responses to Questions on the Solicitation

3/4/2025

**Applicant Question #1: Are community liaisons expected to reside within the geographies identified?**

A: Community Liaisons are not required to reside within the geographies identified and focus areas are not limited to the specific geographies of interest listed in the RFP. Community liaisons will need to be familiar with the networks and community-level interests and priorities.

**Applicant Question #2: Should proposals be broken out into separate categories for CBSF and CAP?**

A: In describing your technical approach and budget please describe relative levels of effort and any specific or unique activities for each program. In the budget upload, please separate proposed tasks for CBSF and CA to allow for evaluation of proposed costs and effort by program.

**Applicant Question #2: Are those who currently work on NFWF grants eligible to apply?**

A: Yes, those who currently work on NFWF grants are eligible to apply for both the field liaison and community liaison roles.
